

# KEVIN MANDA

IT SECURITY SPECIALIST

I am a tech savvy individual keen on accelerating tech advancements in & around Botswana for better service and product delivery to reduce queues and the tension that arises with poor management & technical difficulties that can lead to failure of production/ delivery of goods and services with **cloud computing**. I devoted most of my time to developing the suitable data flow system to reduced traffic congestion and higher bandwidth speeds for Botswana & neighboring countries. A hobby I carry out day and night to flawlessly merge the new system with the existing!

|---|---|---|
| Post Office ✉ | P. O Box 26119 Gaborone | • Ultimate Solutions<br>Gaborone, Botswana System Engineer, Sales management<br>They gave me a head start in familiarizing myself with the market as a tech enthusiast and<br>allowed me to learn more skills under their wing<br>but my learning time and working time collided with each other so I left for further studies (2019) |
| Website 🌐 | https://citynest.web.app/Home.html | • Koala Medical Center<br>Mogoditshane, Botswana Digital marketing<br>A new company willing to discover the power of<br>the internet and took me in to expose them to more clients over the internet, creating a website for them and managing their Facebook<br>account. I left to pursue further studies (2019) |
| Email ✉ | kevinmanda92@outlook.com<br>& | • Moscat Agencies<br>Gaborone, Botswana System engineer, Programmer |

| | | |
|---|---|---|
| | kmanda@idm.ac.bw | Moscat is an internet café which provides point<br>of sales software for general dealers around Botswana and to some parts of Africa since I got<br>to assist other companies remotely from other countries such as Namibia. I left to increase my<br>studies (2020) |
| ~~Number/~~<br>Discord ☎ | HTTPS://DISCORD.GG/ZDFVVZQVZP | • Kamoso PTY(LTD)<br>Gaborone, Botswana Digital marketing, networking<br>Kamoso is a well-established supplier from Botswana, I had the opportunity to represent this company online and also help them move data securely from one computer to the other in various points around the city on a cheap and<br>reliable data plan. I left to Kamoso to focus on my skills as a programmer (2020). |
